Subject: NXT Application

Some people who received this message don't often get email from gbwallace1209@outlook.com. [Learn why this is important](#)

To the Columbia County
Commissioners,

Based upon the previously submitted facts regarding the lack of feedstock as well as the uncertified dikes it is my suggestion to each of you to DENY this application at this time.

The position presented by NXT is filled with gaps and “missing information”. Any business venture would be foolish. Nobody signs any contract with “missing information”; why would you? And, if you do proceed against the facts, your legal position will be dubious.

The failure of your dikes is the greatest liability to your area’s safety. Any disregard should be resolved (the dikes corrected for US Army Corp certification) for this and any further projects. It will attract investors with certified dikes.

In closing, it is my opinion, that no further consideration be given this project. It is a boondoggle which will leave you with a mess in your future.

Sincerely,
Gary Wallace
Kalama, WA.
