

John Freeman
22529 Columbia River Highway
Clatskanie INCREMENTALISM!

This Poison Camel in the
Tent is a RAILYARD'S
Front Door.

I am in opposition to the
Proposed "Branch Line", it
is the first part of a
Rail Yard for shuffling
poisons next to farmland
and fragile ecosystems.

The nose of this camel
is attached to further
legs carrying and storing
hazards we Don't Need!
