Subject: NXT railyard dissaproval

Some people who received this message don't often get email from juliannahoffwatson@gmail.com. [Learn why this is important](#)

To those in powerful positions,

I am in opposition to NXT as the proposal will disrupt water, farmland, noise, natural habitat and contribute to an unhealthy work environment for the people of Clatskanie. Please do not contribute to an already polluted deep water port. There should absolutely not be a railyard because of the possibility of spilling, de-railing, unapproved waste and NOISE especially for those living near. a major disruption for this community!!!
