Section 400 FOREST/AGRICULTURE - 80 FA - 80

- 401 Purpose: The purpose of this zone is to protect and promote forest and farm uses on lands which have resource value, but which are not suited for either Primary Forest (PF-80) Zone or the Primary Agriculture (PA-80) Zone because of smaller parcel sizes, conflicting adjacent uses, adverse physical features, a predominate mixture of forest and farm uses, or other limiting factors. The Forest/Agriculture (FA-80) Zone is designed to provide for the full range of forest and agricultural uses for such lands, while providing for the maximum property tax benefits available (e.g. farm use assessment, timber tax treatment, open space deferral etc.) and conformity with the Columbia County Comprehensive Plan’s Goals and Policies for Forest and Agriculture Lands.
- 402 Predominant Use Test [(OAR 660-06-0050 (2))]. The uses, activities and development in the Forest/Agriculture Zone, except provisions identified in Section 404 for land divisions, are based on a determination of the predominant use of a tract as of January 1, 1993 as either Farm or Forest land. These uses, activities, and development are authorized subject to review and approval under applicable regulatory standards for either the Primary Agriculture (PA-80) Zone or the Primary Forest (PF-80) Zone property. A "tract" is defined as one (1) or more contiguous lots or parcel(s) under the same ownership.
- 403 Definitions. Pursuant to Section 402, for a tract where the predominant use as of January 1, 1993 is determined to be in farm or forest use, the terms related to these uses are defined in Sections 300 and 500 of the Columbia County Zoning Ordinance, the Oregon Revised Statutes Chapter 215 and the Oregon Administrative Rules Chapter 660 Divisions 6 and 33.
- 404 Permitted and Conditional Uses: Permitted and Conditional Uses, partitioning, and development standards will be determined by the Predominant Use Test described in Section 402 above. Notwithstanding the Predominant Use Test, the following Permitted and Conditional Uses shall be reviewed, as follows:

- .1 Uses Subject to Administrative Review. The following uses are permitted, subject to review and approval under prescriptive standards specified herein and as may otherwise be indicated by federal, state and local permits or regulations using the process in Section 1601:
 - A. Marijuana Growing or Producing subject to standards in Section 1803.
 - B. Psilocybin-producing fungi growing or production subject to standards in Section 1804.

Measure 109 Explanatory Statement

Ballot Measure 109 directs the Oregon Health Authority to regulate the manufacture, delivery, purchase, and consumption of psilocybin, a psychoactive component found in certain mushrooms, at licensed psilocybin service centers. A person would be allowed to purchase, possess, consume, and experience the effects of psilocybin only at a licensed psilocybin service center during a psilocybin administration session with a licensed psilocybin service facilitator. The measure also directs the OHA to issue, renew, and revoke licenses in compliance with the measure. The measure establishes the Oregon Psilocybin Advisory Board to advise and make recommendations to the OHA regarding psilocybin, including recommendations regarding the requirements, specifications, and guidelines for providing psilocybin services to clients, public health and safety standards, industry best practices, education and training.

Currently psilocybin is a Schedule I drug, a substance having no currently acceptable medical use within the US. However, the FDA has granted psilocybin a breakthrough therapy designation for treatment resistant depression and major depressive disorder under the direction of physicians and scientists.

The measure provides for an initial two-year development period during which the OHA will not issue any licenses. During the two-year development period, the Advisory Board also will submit findings and recommendations to the OHA regarding the safety and efficacy of using psilocybin to treat mental health conditions, which findings the OHA will examine, publish, and distribute publicly. During the two-year development period, existing law regarding the manufacture, delivery and possession of psilocybin will not be affected by the measure.

After the two-year development period, the measure allows a client who is at least 21 years of age to purchase, possess, consume, and experience the effects of psilocybin at a licensed psilocybin service center during a psilocybin administration session with a licensed psilocybin service facilitator. The measure does not legalize the purchase, possession, and consumption of psilocybin outside of a licensed premises. The measure establishes licensure eligibility criteria and directs the OHA to establish education and training standards for psilocybin service facilitators, provided that a facilitator need not be a currently licensed physician. The measure requires that psilocybin products be tested in a licensed laboratory and packaged and labeled in compliance with specified requirements. The measure allows the OHA to discipline licensees for noncompliance with the provisions of the measure, and to take any action to prevent the diversion of psilocybin to an unlicensed person or entity.

The measure requires the OHA to track the sale and transfer of psilocybin products through a state tracking system. The measure imposes a sales tax on the retail sale of psilocybin products at a rate of 15 percent of the retail sales price.

The measure prohibits a local authority from establishing its own psilocybin licensing system or imposing additional psilocybin taxes or fees. Cities and counties may adopt ordinances to impose reasonable regulations on the operation of licensed establishments and may refer an ordinance to electors to prohibit or allow the establishment of licensed psilocybin facilities in the city or county.

Informed Consent

(1) A facilitator must provide every client a copy of the following informed consent document during the client's preparation session:

Introduction:

In the State of Oregon, psilocybin services include a preparation session, administration session, and integration session. You should receive this informed consent form prior to or during your preparation session. During the preparation session, your facilitator will review and discuss this form with you. Please make sure you read and understand every section because you must sign the form before the administration session begins. If you do not understand any part of this document, please ask your facilitator for clarification before signing.

I have been informed of and understand the following:

(Please initial each item below)

1. *I have reviewed the Psilocybin Services Client Bill of Rights, my facilitator has explained it to me, and I understand my rights as a client.*
2. *I understand that psilocybin services do not require medical diagnosis or referral and that psilocybin services are not a medical or clinical treatment.*
3. *I understand that psilocybin has not been approved by the Food and Drug Administration and the federal government currently classifies psilocybin as a Schedule I controlled substance under the Controlled Substances Act.*
 - a. *Federal law prohibits the manufacture, distribution, and possession of psilocybin even in cities and states that have adopted laws to allow its possession or use.*
 - b. *Despite its federal Schedule I status, research suggests that psilocybin is very unlikely to be addictive. Additionally, research and other information suggests that psilocybin may improve symptoms of depression, anxiety, end of life distress, various forms of trauma, and problematic substance use.*
4. *I understand that while existing research has shown promising results, the risks, benefits, and drug interactions of psilocybin are not fully understood, and individual results may vary.*

NOTE: The text in OAR 333-333-1010 tracks changes made to the definitions rule adopted in May 2022. The new text in this section is underlined. Changes are not tracked for the remaining sections because all of the text is new.

5. *I understand that some people have found psilocybin administration sessions to be challenging or uncomfortable. Common potential side effects include nausea, mild headache, fatigue, anxiety, confusion, increased blood pressure, elevated heart rate, paranoia, perceptual changes, altered thought patterns, reduced inhibitions, recovery of repressed memories and past traumas, and altered perception of time and one's surroundings. If they occur, these side effects are usually mild and temporary. Because the potential risks and benefits of psilocybin administration are not fully understood, there may be unanticipated side effects.*
6. *I understand that if I am taking prescription medications or have a medical condition or mental health condition, I should consider consulting with a medical or clinical provider before participating in an administration session.*
7. *I understand that psilocybin is derived from fungi. If I have a known mushroom allergy, I should consult with a medical professional before participating in an administration session.*
8. *I understand that the risks of psilocybin during pregnancy and breastfeeding are unknown.*
9. *I understand that facilitators may not use touch while providing psilocybin services without my prior written consent. My facilitator and I have discussed acceptable types of supportive touch and the requirement to provide prior written consent prior to the start of my administration session.*
10. *I understand that facilitators may be mandatory reporters of abuse. If my facilitator is a mandatory reporter, they have shared this information with me and explained their legal obligations to report abuse.*
11. *I understand that facilitators have a duty to report misconduct that harms or endangers a client to the Oregon Health Authority. If the misconduct presents an immediate risk to health and safety, facilitators have a duty to contact emergency services.*
12. *I agree to follow my agreed upon transportation plan. I understand that a facilitator may contact emergency services if failure to follow my transportation plan presents a risk to my safety or the safety of others.*

NOTE: The text in OAR 333-333-1010 tracks changes made to the definitions rule adopted in May 2022. The new text in this section is underlined. Changes are not tracked for the remaining sections because all of the text is new.

13. ____ *I understand that being administered psilocybin is completely voluntary and I may decide not to receive psilocybin at any time.*
14. ____ *I understand that I have the right to update my client information form prior to beginning an administration session and I have the right to receive a copy of my client information form upon request.*
15. ____ *I understand that de-identified data collected by my facilitator or service center may be shared with people and institutions outside of the facilitator or psilocybin service center for research and other purposes.*
16. ____ *I understand data that may be used to identify me as a client will only be shared to the extent permitted or required by law. Specifically, ORS 475A.450 allows disclosure in the following circumstances:*
 - (1) *When the client or a person authorized to act on behalf of the client gives consent to the disclosure;*
 - (2) *When the client initiates legal action or makes a complaint against the psilocybin service center operator, the psilocybin service facilitator, or the employee;*
 - (3) *When the communication reveals the intent to commit a crime harmful to the client or others;*
 - (4) *When the communication reveals that a minor may have been a victim of a crime or physical, sexual or emotional abuse or neglect; or*
 - (5) *When responding to an inquiry by the Oregon Health Authority made during the course of an investigation into the conduct of the psilocybin service center operator, the psilocybin service facilitator, or the employee under ORS 475A.210 to 475A.722.*
17. ____ *I understand that my facilitator may take short restroom breaks, up to approximately 5 minutes, during my administration session.*
18. ____ *I understand that for my own safety, leaving a psilocybin service center during an administration session once it has begun is strongly discouraged. Doing so could lead to safety and legal risks.*
19. ____ *I understand and have been informed of the potential benefits, risks, and complications of psilocybin services with my facilitator to the extent that they are known.*

NOTE: The text in OAR 333-333-1010 tracks changes made to the definitions rule adopted in May 2022. The new text in this section is underlined. Changes are not tracked for the remaining sections because all of the text is new.

21. ____ *My facilitator has shared information regarding verification of license status and process for making complaints to the Oregon Health Authority.*
22. ____ *I have had the opportunity to ask questions regarding anything I may not understand or that I believe should be made clear.*
23. ____ *If participating in a group administration session, I understand that I will be experiencing the effects of psilocybin in the presence of other clients who are also experiencing the effects of psilocybin and may be reacting to the experience in a different manner.*
24. ____ *If consuming greater than 35 mg of psilocybin analyte during an administration session, I acknowledge that clinical trials have not typically administered doses of greater than 35 mg of psilocybin analyte. The risks and benefits of consuming doses greater than 35 mg of psilocybin analyte are unknown.*
25. ____ *If consuming whole fungi during an administration session, I understand that psilocybin content can vary between individual fruiting bodies.*
26. ____ *I understand that a facilitator has a duty to call emergency services if required and a client assumes responsibility for costs of emergency services.*
27. ____ *I understand that I may be charged a cancellation fee if I cancel a scheduled preparation, administration or integration session with less than 24 hours' notice.*

(a) Maintain an accurate and complete list of all psilocybin tracking system administrators and psilocybin tracking system users for each licensed premises and must update the list when a new psilocybin tracking system user is trained.

(b) Train and authorize any new psilocybin tracking system users before those users are permitted to access the psilocybin tracking system or input, modify, or delete any information in the psilocybin tracking system.

(c) Cancel any psilocybin tracking system administrator or user from an associated psilocybin tracking system account if that individual is no longer a license representative.

(d) Correct any data that is entered into the psilocybin tracking system in error.

(6) Each service center, manufacturer and laboratory licensee is accountable for all actions license representatives take while logged into the psilocybin tracking system or while otherwise conducting inventory tracking activities.

(7) Nothing in this rule prohibits a service center, manufacturer or laboratory licensee from using secondary separate software applications to collect information to be used in its operation including secondary inventory tracking or point of sale systems. If a licensee uses a separate software application that links to the psilocybin tracking system, it must get approval from the psilocybin tracking system vendor contracting with the Authority and the software application must:

(a) Accurately transfer all relevant psilocybin tracking system data to and from the psilocybin tracking system for the purposes of reconciliation with any secondary systems.

(b) Preserve original psilocybin tracking system data when it is transferred to and from a secondary application.

(8) If at any point a service center, manufacturer or laboratory licensee loses access to the psilocybin tracking system for any reason, the licensee must keep and maintain comprehensive records detailing all tracking inventory activities that were conducted during the loss of access.

NOTE: The text in OAR 333-333-1010 tracks changes made to the definitions rule adopted in May 2022. The new text in this section is underlined. Changes are not tracked for the remaining sections because all of the text is new.

(a) Once access is restored, all inventory tracking activities that occurred during the loss of access must be entered into the psilocybin tracking system.

(b) A licensee must document when access to the system was lost and when it was restored.

(c) A licensee may not transport any psilocybin product to another licensed premises until such time as access is restored and all information is recorded into the psilocybin tracking system unless the Authority has provided written authorization to do so.

(6) In addition to the requirements in section (1) of this rule, service centers must record each sale or transfer of a psilocybin product to a client as a sales transaction and record the price before tax and amount of each item sold and the date of each transaction in the psilocybin tracking system for each individual transaction.

(7) Information that is not required to be recorded and reconciled daily pursuant to section (4) of this rule must be recorded and reconciled within three calendar days of the service center, manufacturer or laboratory licensee's receipt of unique identification tags.

TA 23-01 Psilocybin manufacture and service centers

Hayden Richardson presented the staff report for TA 23-01

REQUEST:

To amend the Columbia County Zoning Ordinance in response to Measure 109 and ORS 475A which allows for Psilocybin manufacture and service centers. This involves amending existing sections of the Zoning Ordinance as well as developing a Special Use Section 1804 for Psilocybin related uses.

Background:

Oregon voters approved Ballot Measure 109 on November 3, 2020, which authorizes the manufacture and use of psilocybin products under controlled supervision and establishes the regulatory framework for oversight and administration. Measure 109 was codified in ORS Chapter 475A and is patterned after the current marijuana statutes and regulatory system. Measure 109, which legalized psilocybin in Oregon, automatically opts cities and counties into the psilocybin program, which is currently under development and is slated to begin statewide on

January 2, 2023. However, Measure 109 offers the option for cities and counties to opt out via a ballot measure in the next general election.

Ballot Measure 109 directs the Oregon Health Authority to regulate the manufacture, delivery, purchase, and consumption of psilocybin, a psychoactive component found in certain mushrooms, at licensed psilocybin service centers. A person would be allowed to purchase, possess, consume, and experience the effects of psilocybin only at a licensed psilocybin service center during a psilocybin administration session with a licensed psilocybin service facilitator. The measure also directs the OHA to issue, renew, and revoke licenses in compliance with the measure. The measure establishes the Oregon Psilocybin Advisory Board to advise and make recommendations to the OHA regarding psilocybin, including recommendations regarding the requirements, specifications, and guidelines for providing psilocybin services to clients, public health and safety standards, industry best practices, education, and training.

Columbia County passed Measure 109 in 2020 by 15,827 (50.8%) Yes votes to 15,307 (48.2%) No votes. On August 17, 2022, Land Development Services Staff met with the Columbia County Board of Commissioners and discussed the benefits of developing Time, Place, and Manner (TPM) regulations in response to Measure 109. The timelines associated with developing these regulations versus pursuing an opt-out measure were also discussed. During this meeting, it was decided that the Board would not pursue an opt-out measure on the ballot, but rather directed staff to begin the TPM process.

Measure 109 does contain limited basic criteria pertaining to land use. For instance, psilocybin service centers may not be located within 1,000 feet of elementary or secondary schools (500 feet if there is a physical or geographic barrier), and manufacturing facilities may not be located outdoors. Service centers may not be located in single family dwellings.

Measure 109 provides little direction as to “reasonable” time, place, and manner restrictions. Ultimately, in order for regulations to be “reasonable,” such regulations must be necessary to protect public health, safety and welfare of the citizens of Columbia County. ORS 475A.530 defines local time, place and manner regulations which include, but are not limited to:

- (a) Reasonable conditions on the manner in which a psilocybin product manufacturer that holds a license issued under ORS 475A.290 may manufacture psilocybin products.
- (b) Reasonable conditions on the manner in which a psilocybin service center operator that holds a license issued under ORS 475A.305 may provide psilocybin services;
- (c) Reasonable limitations on the hours during which a premises for which a license has been issued under ORS 475A.210 to 475A.722 may operate;
- (d) Reasonable requirements related to the public’s access to a premises for which a license has been issued under ORS 475A.210 to 475A.722; and

(e) Reasonable limitations on where a premises for which a license may be issued under ORS 475A.210 to 475A.722 may be located.

On September 12, 2022, Staff held a work session with the Planning Commission to discuss the proposed amendments to the zoning ordinance. At this meeting, staff presented the general proposal to the Planning Commission. The general proposal for TA 23-01 includes psilocybin production/manufacturing permitted in the Primary Agriculture (PA-80) zone, authorized via administrative review process in Primary Forest zone and Industrial zones, authorized via conditional use permit in Rural Community zone and prohibited in all residential zones. Psilocybin Service Centers will be authorized via administrative review process in Commercial and Rural Community zones, permitted in Community Service – Institutional zone. Staff would like to note that the Community Service Institutional zone allows for similar uses such as hospitals, clinics, extended care facilities, etc. In addition to the zone specific processes, the proposal for TA 23-01 also includes establishing a new Section 1804 – Psilocybin Land Uses. This new section will require all new psilocybin uses to comply and be approved by the Oregon Health Authority. It describes the OHA Land Use Compatibility process and that the applicant shall obtain full land use approval prior to Columbia County signing off on a LUCs. It also requires separation from sensitive uses such as schools, public parks, and day care centers. Finally, it limits the business hours for proposed psilocybin service centers from 7AM to 6PM and does not allow for overnight operations.

Hayden Richardson reviewed the Columbia County Zoning Ordinance, Sections 1606, 1607 and 1611, Oregon Revised Statutes 197.610 and 215.503, and Columbia County Comprehensive Plan Part 1, V and XIV.

Passage of Oregon State Bill 109, by the voters is what has brought this to light. There is minimal framework at this point and we are looking at it like we did the Marijuana rules. This is a general proposal and will have limitations. There will be additional information Section 1804 of the Columbia County Zoning Ordinance. Oregon State Health Department will have to approve. Hours will be reviewed in depth as we learn more of what the exact needs will be. We will review what zones and where it will be approved.

The FDA has stated that there is a real break through with the benefits to those that suffer from mental health and depression issues.

This application is being heard by the Planning Commission only to make a recommendation to approve or deny by the Board of Commissioners. No public comments are being taken because this has been voted in by the voters of Columbia County.

Questions from staff:

Alta Lynch wanted to clarify what the Planning Commissions part is in the process. Hayden Richardson stated that the Planning Commission is only making a recommendation to the BOC.

Open to the public:

Joshua Tanner: medical student. Mr. Tanner would like to open a facility in Columbia County. He has concerns about some of statements. Having set hours, ie: 7 a.m. to 6 p.m. is not good, this presents less attractive business times. Since every person is different the recuperation times can vary. We need to look at the safety of the clients, set hours = risk as well as safety issues.

Alta Lynch asked what hours Mr. Tanner thought would work? Hayden Mentioned that the hours have not been set and it would be addressed in 1804.4D

Deborah Jacob also has concerns with the hours, we need to look at what would be best for the client for their safety and well-being at treatment time.

Chris Warrking mentioned that someone should be picking up the client, an assigned driver is needed, possibly have an overnight stay option. It seems like someone should over see the client for 12 hours. Chris also pointed out that this treatment could end up being an over-night thing.

Joshua Tanner added that this is just a draft, but transportation is critical and OHA will probably require it. We will have to wait and see what the OHA restrictions will be. Joshua wants us to be sure to consider the safety of the client, the appointment isn't always in a 4-6 six hour window, not all appoints can start in the morning hours. There needs to be a safe place for the clients where they will feel safe. This treatment addresses serious depression and trauma. Motivation is safety here and there should not be a minimum or maximum time for the treatment.

Nikole Young. We do not at this point know what is exactly needed at this point, we are hearing concerns that it is not just a treatment but needs observation also. Safety appears to be a big issue and what appears to be needed is not just a administration center but also a treatment center.

Closed to the public.

Brian Brust feels we should pay special attention to the hours for multiple reasons.

Spencer Parsons pointed out that we are only making a recommendation to the Board of Commissioners. Spencer would also direct that the Planning Staff does leg work regarding the hours.

Joshua Tanner also mentioned that John Hopkins already has guidelines for this.

Alta Lynch asked if the BOC would be fully aware of what is going on before any decisions was made? Yes, the Board of Commissioners will be aware of the issues. Alta would like to see the process cover the complete process.

Spencer Parsons reminded us that this has to be resolved by January 2023 according to the State of Oregon.

Brian Brust made a motion to recommend that the Board of Commissioners approve this proposal after the leg work on the hours is done. Chris Warrking seconded after the hours have been address.

TA 23-02 Presented by Hayden Richardson

REQUEST: To amend the Columbia County Zoning Ordinance in response to the adoption of Senate Bill 391 and ORS 215.495 to develop standards to allow for Accessory Dwelling Units within Rural Residential zones.

BACKGROUND:

In the 2021 Regular Legislative Session, the Oregon Legislature passed Senate Bill 391 which was codified in ORS 215.495. This Senate Bill allows counties to authorize the siting and construction of an Accessory Dwelling Unit (ADU) in Rural Residential zones subject to certain conditions and compliance with local land use regulations.

Currently, the Columbia County Zoning Ordinance allows the establishment of one ADU within Suburban Residential zones within identified city Urban Growth Boundaries. This was authorized via Ordinance 2019-1 which was adopted on May 15, 2019. The adoption of TA 23-02 would expand the siting of ADUs into Rural Residential areas as well. Section 224 describes the current siting standards for ADUs within Urban Growth Boundaries, however the proposal for TA 23-02 would separate the siting standards of proposed ADUs inside of urban growth boundaries and proposed ADUs outside of urban growth boundaries. In addition to adopting siting standards for ADUs in rural residential zones, TA 23-02 proposes to reorganize CCZO 224 to make it easier to follow.

The proposal establishes CCZO 224.2 – Accessory Dwelling Units outside of Urban Growth Boundaries. This new section has five subsections that apply to the siting of an ADU on Rural Residential zoned property. The five subsections include a two acre minimum lot size, a maximum of 900 square feet of useable floor area, the ADU cannot be located farther than 100

feet from the primary dwelling, the lot is served by a fire protection district, and the ADU may not be used for vacation occupancy.

The proposal also includes a third subsection to CCZO Section 224 titled General Development Standards. This General Development Standards apply to both inside and outside of UGB ADUs and includes requirements such as; complying with siting criteria as required in the underlying zone, support by an approved domestic water source, proper sewage disposal, access and off-street parking, and prohibiting the establishment of an ADU to be used as justification of a land division.

Currently, Columbia County has processed applications for ADUs within Rural Residential zones. However, rather than making findings directly to the county's local zoning ordinance, findings were made directly to the applicable criteria in ORS 215.495. The proposal for TA 23-02 would adopt the standards found in ORS 215.495 into the county's local zoning ordinance.

Columbia County would like to expand the siting of a ADU home to not only the R10 zones but to other zones as well. This would expand the housing opportunity in Columbia County. This would not be for a vacation home anyway. The ADU would have to be on at least a two acre parcel, this is what the state required, would have to be not larger than 900 sq ft and would have to be within 100 feet of the original home.

Brain Brust asked if there are any chances that someone could be further than 100'. Hayden explained that it can't be less than State Statutes unless we go through a variance process.

Alta Lynch asked if there is an existing barn that is 120-150 feet from the house if that would work? Hayden responded that this would also have to go through variance process.

Nikole Young asked if the 2 acre minimum could be changed? Hayden responded that we can not be less restrictive than the state.

Close Public Hearing.

Alta Lynch made a motion to recommend approval to the Board of Commissioners. Brian Brust seconded.
