HEARING – RATE ADJUSTMENT FOR SOLID WASTE COLLECTION SERVICES:

This is the time set for the public hearing, “In the Matter of the Rate Adjustments for Solid Waste Curbside Collection Services in Unincorporated Columbia County”.

Kathy Boutin-Pasterz, Solid Waste Coordinator, came before the Board to give the staff report. Each year, the County reviews solid waste collection rates using a uniform Detailed Cost Report (DCR) rate review procedure established in 2011, which is designed to provide the information necessary for the County to make rate setting decisions pursuant to Section 5.01 of the Solid Waste Management Ordinance. Under the DCR procedure, an operating ratio for each collection service area is determined using detailed cost data presented by each collection franchisee’s in a standard format prescribed by the County. The operating ratio is a measure, expressed as a percentage, of what proportion of a collection franchisee’s revenue is left over, before taxes, after paying for the variable costs of providing the service. The County has established a policy that an acceptable operating ratio shall be in the range of 8-14% with a target operating ratio of 11%. If the DCR for the previous year indicates an operating ration which is under 8%, a rate adjustment to the target 11% would be made. If the operating ratio falls within the 8-14%, no rate adjustment would be allowed.

In April, Waste Management and Waste Connections, the two solid waste collection franchisees serving rural Columbia County, submitted DCRs to the Columbia County Solid Waste Advisory Committee (SWAC). A map of the franchise collection service areas is contained in the staff report presented to the Board. SWAC met on May 2,

2019. Based on a review of the information submitted in support of the franchise hauler requests, SWAC and staff recommend approval of the rate adjustments as noted in the staff report, a 1.4% rate increase for rural Vernonia, a 4% rate increase for rural Clatskanie service area, a 6% rate increase for rural St. Helens service area, a 5% rate increase for rural Rainier, a 5% rate increase for the drop box service for rural Rainier Service and the allowable disposal pass thru of \$.17 for all service areas, effective July 1, 2019.

Evan Burmester, Waste Management, responded to Commissioner Heimuller's question regarding the rate correction for the Vernonia Rural area. Typically, when they do a rate increase for Columbia County, they have just applied a uniform percentage. This year, in review of their rates, they looked at the Vernonia Rural area every other week \$35 gallon rate, as a proportion of the weekly rate, as compared to the Scappoose Rural area rate. Using the Scappoose Rural rate was applied to the Vernonia Rural rate, to correct the disparity. A letter will be sent out to those affected regarding the rate adjustment.

The hearing was opened for public testimony.

With no testimony coming before the Board, the hearing was closed for deliberation. Based on the staff report and recommendation by SWAC and county staff, Commissioner Magruder moved and Commissioner Heimuller seconded to approve Order No. 57-2019, "In the Matter of the Rate Adjustments for Solid Waste Curbside Collection Services in Unincorporated Columbia County", effective July 1, 2019. The motion carried unanimously.
