Due to negotiations, curing required by NTIA, and updates based on optimizing BEAD-eligible locations, changes may have been made to the project proposals that were initially submitted in the Benefit of the Bargain Round. Additional project updates are also required from preliminary subgrantees. All data updates and update requests are outlined in the TU1.02 Project Updates Template provided to the preliminary subgrantee via email. By signing and submitting this attestation, BEAD preliminary subgrantees will acknowledge and approve the updates to their projects.
