1. **Term.** This Agreement shall remain in full force and effect commencing on the Effective Date and continue through December 31, 2025 (the “Initial Term”). After the expiration of the Initial Term, this Agreement shall automatically renew for an additional one-year term (each, a “Renewal Term” and collectively with the Initial Term, the “Term”). ### Exhibit A

Safe driving practices are required. Vehicle operators must drive to actual conditions:

- **Maximum speed limit of 25 mph on all logging roads.**
- Road conditions, bad weather and limited visibility will require slower speeds.
- Drive such that you can always stop within half your sight distance.
- Always drive to the right side of the road – yield to heavy equipment.
- Do not enter active logging areas, unless authorized – see precautions below.
- Drive with lights on at all time.
- Safety belts must be worn by all passengers when driving on Weyerhaeuser lands.
- Do not block roadways, without prior permission of an authorized Weyerhaeuser representative.

CB channels are available for contact with log trucks. Do not depend on CBs - drive defensively, assume there is oncoming traffic around every corner. Give log trucks the right-of-way. (Channel 8 is commonly used.)

Compliance with all applicable state and federal regulations is required.

High-viz. orange clothing, hard-hats and other personal protective equipment are highly recommended and **required** in active operating areas.

Drug and alcohol use on company property or jobs sites is strictly forbidden.

Access for business purposes only - not for recreational purposes.

No off-road driving unless previously authorized in writing.

Stay clear of all cutting operations, equipment, and lines (cable) until you have direct contact with the operator and are instructed that it is safe to proceed:

- Stay at least 300 feet from feller-bunchers (rotosaws). This equipment can throw limbs and chunks long distances. CB channel to contact the operator may be posted at the unit.
- Stay at least 150 feet from processors - this equipment handles stems tree length and has a large radius that is a hazardous area.
- OBEY ALL SIGNS posted by Weyerhaeuser.
- Even if a unit is not posted with signs, use common sense, and follow the instructions given above.
- Gates are to be left in the same condition as you find them – open or closed.
