Subject: Farm land

I have been a resident of Clatskanie my whole life, my grandfather was the town's famous doctor Who made the stinky burn medicine FRST, my grandmother on the other side establish the clatskanie floral shop, my mother is a nutritionist in our little town here. Our farmlands are very important to us and once it is taken away we will never get it back, toxins and chemicals are killing everyone and everything, please don't take our farmlands away, this is not right to destroy what we have, please let the animals keep their homes, if you change all this it will never be the same and it will not be good for anyone who's lived in this town, we deserve our farmlands we have earned them we work them and they are ours, Think of our children and our future not about big corporation and money, do not destroy gods beautiful land for wealth. We love our area.

Sincerely, Teresa George Sargent Sent from my iPhone
