

# JOHN GUMM BUILDING PROJECT UPDATE

Columbia County, OR

### JOHN GUMM KICKS OFF CONSTRUCTION!

We officially started at the John Gumm Building! We have got everything set up onsite including fencing, trailers, and signage showing everyone where to go to keep everyone safe. We have started cleaning up inside the building and abating/removing asbestos. We will start demolition to prepare the structure for the brand-new floor plan.

### WHAT'S NEXT

We are looking forward to continuing demoing out and rebuilding the mezzanine area around the auditorium. Next, we will demo and start framing in the basement and then continue up through the first and second floors.

*Beginning Demolition*

*Level 2 Corridor*
