

JOHN GUMM BUILDING PROJECT UPDATE

Columbia County, OR

WORK CONTINUES!

We are onto painting and ceiling install in the basement, mechanical ductwork, and drywall on 1st floor, and framing for roof insulation on the 2nd floor. We are continuing to frame the 2nd floor and install mechanical ductwork. We continue to find additional unexpected, needed repairs and are focused on replacing these items and building a strong, secure building for the county for many years to come.

WHAT'S NEXT

Next, we are moving onto painting on the 1st floor, drywall on the 2nd floor, and finishing up the basement.

Installation of Ceiling Grid in Basement

Level 2 Framing for Roof Insulation

Level 1 HVAC Rought In and Drywall
